

MIG-MAG WCM 250 TORCH

DIAGRAM WCM 250

WCM 250

Welding torches Mig Torches

The WCM series of MIG MAG air cooled torches provide the welder with great versatility and ergonomics.

They are designed to stand highly demanding work regimes. They have a rotation point at the base of the grip for increased durability of the torch.

Exploded

1	(See spare parts on page 71-72)	10	Rear cable support
2	Pier	11	Male cable terminal
3	Swan neck	12	Rear body
4	Support sleeve	13	Screw
